

## THE SNOWHAWK® COLD WEATHER GOGGLE SYSTEM – APEL

Protects against exposure in extreme cold weather conditions.

Revision's **SNOWHAWK COLD WEATHER GOGGLE SYSTEM** was developed specifically for use in extreme environments and delivers unmatched ballistic protection and anti-fog performance in remote, sub-zero conditions. With frames designed to seal securely and comfortably against the wearer's face, and military-grade dual-pane thermal gasket lenses, SnowHawk eyewear insulates the eyes, providing elite environmental protection – for missions where the elements pose an equally formidable threat. The SnowHawk goggle is a key component of the Gryphon ecosystem - which provides seamless integration between your eyepro and face covering - and features GrypMag™ technology. Built-in magnetic attachment points in the goggle frame and headwear give you the ability to quickly connect them together, protecting you from the elements.

## CHARACTERISTICS/COMPONENTS

<b>PURPOSE</b>	A fully-integrated, full-coverage ballistic goggle and balaclava system, with leading anti-fog performance and breathability, for operations in the most unforgiving, extreme cold environments on the planet.
<b>WEIGHT</b>	174 grams
<b>BALLISTIC PERFORMANCE</b>	Meets or exceeds the following standards: <ul style="list-style-type: none"> <li>MIL-PRF-32432A clause 3.8.4.2 Ballistic fragmentation characteristics Class 2 and 3 goggles</li> <li>ANSI Z87.1-2015 clause 6 Impact-Rated Protector Requirements (Z87+)</li> </ul>
<b>LENS COATINGS</b>	Revision's Ocumax sets the benchmark for next generation anti-fog coatings. <ul style="list-style-type: none"> <li>Maintains clarity in extreme conditions</li> <li>Lasts 10-20 times longer than competing anti-fog solutions</li> <li>Anti-Scratch coatings on the outside of the lens and anti-fog coatings on the inside</li> </ul> <p><b>ANTI-FOG TEST:</b> EN166, Clause 7.3.2 – Eyewear must remain fog free for a minimum of 8 seconds at 50°C</p>  <p>EN 166: Revision's Ocumax coating drastically exceeds the 8-second industry standard for anti-fog protection (EN 166, Clause 7.3.2), remaining fog free for over 100 seconds when exposed to a constant heat of 50°C.</p>
<b>SIZES</b>	<b>GOGGLE</b> – Adjustable strap on the goggle ensures one size fits all. <b>GRYPHON ALPINE BALACLAVA</b> – Available in small/medium or large/extra-large.
<b>LENSES</b>	Lenses are made of indestructible, optical-grade polycarbonate and can be inter-changed quickly for different light conditions and environments – all providing 100% UV-A-B-C protection. <ul style="list-style-type: none"> <li><b>CLEAR</b> – Maximize light transmittance. Use indoors or at night.</li> <li><b>SMOKE</b> – Reduce extreme glare and squinting. Use outdoors or in bright conditions.</li> </ul>
<b>MATERIALS</b>	<b>GRYPHON ALPINE BALACLAVA</b> – Polyester, Spandex These products are in full compliance with the requirements of the Berry Amendment, 10 USC 2533a, as implemented by DFAR 252.225-7012, meaning that any textile end products, including all textile components thereof and if the end product is a clothing item all components thereof, have been grown, reprocessed, reused or produced in the United States or one of its territories.

## GRYPHON ALPINE BALACLAVA

### GRYPMAG™ TECHNOLOGY

GrypMag technology leverages Anon®'s MFI (Magnetic Face Integration) solution originally developed for the ski and snowboard market. Built-in magnetic attachment points in the frame and headwear give you the ability to seamlessly connect your goggle and headwear, creating a complete facial seal. Revision's Gryphon ecosystem of Headwear Accessories and Goggle Systems provide ultimate protection in a variety of environments.
