

SLINGSHOT BALLISTIC SUNGLASSES

Battlefield Protection with Everyday Style

SLINGSHOT BALLISTIC SUNGLASSES – featuring a browless design, off-the-charts anti-fog performance, customizable fit, and rapid lens swap capabilities, the SlingShot exceeds stringent military ballistic impact requirements. The unique style of SlingShot delivers numerous advantages over traditional ballistic sunglasses – it allows airflow to provide unparalleled venting, exceptional anti-fog capabilities and allows for unobstructed views while in a head-down or prone position – perfect for shooting sports applications. The temple arm design works seamlessly with head-borne equipment for optimal comms compatibility and performance in the field while offering all-day comfort. Using our adjustable nosepiece the SlingShot conforms to any nose bridge, providing an optimal fit. Delivering the utmost in flexibility, fit and protection, Revision designed SlingShot to work across multiple environments, user demands, and scenarios.

CHARACTERISTICS/COMPONENTS

PURPOSE	Battlefield protection with everyday style: military ballistic protection with a browless design, anti-fog performance, customizable fit, and rapid lens swap capabilities.
BALLISTIC PERFORMANCE	Meets or exceeds the following standards: <ul style="list-style-type: none"> • MIL-PRF-32432A clause 3.8.4.1 Ballistic fragmentation characteristics Class 1 spectacles • ANSI Z87.1-2020 clause 7.1 Impact-Rated Protector Requirements (Z87+)
LENS COATINGS	<p>Revision's Ocumax sets the benchmark for next generation anti-fog coatings.</p> <ul style="list-style-type: none"> • Maintains clarity in extreme conditions • Lasts 10-20 times longer than competing anti-fog solutions • Anti-Scratch coatings on the outside of the lens and anti-fog coatings on the inside <p>ANTI-FOG TEST: EN166, Clause 7.3.2 – Eyewear must remain fog free for a minimum of 8 seconds at 50°C</p>  <p>EN 166: Revision's Ocumax coating drastically exceeds the 8-second industry standard for anti-fog protection (EN 166, Clause 7.3.2), remaining fog free for over 100 seconds when exposed to a constant heat of 50°C.</p>
LENSES	<p>Lenses are made of indestructible, optical-grade polycarbonate and can be inter-changed quickly for different light conditions and environments – all providing 100% UV-A-B-C protection.</p> <ul style="list-style-type: none"> • CLEAR – Maximize light transmittance. Use indoors or at night. • SMOKE – Reduce extreme glare and squinting. Use outdoors or in bright conditions.
